Vikings At Pellston Friday Afternoon

John H. Alef, center, new president of the Crawford County Chamber of Commerce receives congratulations from John Latus, left, who served as first vice president last year and guided the Chamber activity during the latter part of the year after President Robert Schulze moved from the city. Looking on left, Chamber manager Robert Hayes.

The Grayling High Vikings still seeking their first gridiron victory of the 1962 season travel to Pellston Friday afternoon to test the Hornets. Pellston dropped a close 13 to 12 decision to the Charlevoix Raiders last Friday night. They will be determined to get into the win column too.

The Hornets are said to be a big team with one extremely fast backfield player. They could give Grayling some trouble. The Vikings, on the other hand, although beaten twice have stood up good in the statistical columns and although outscored have stayed close to their opponents otherwise.

In other conference action last Friday evening, the Boyne City Ramblers posted themselves as the team to beat in the conference race as they overcame the Harbor Springs Rams 47 to 0. Gaylord just managed to edge the East Jordan Red Devils 6 to 0. This week in addition to the Grayling Pellston fray, Boyne City is at East Jordan, Charlevoix is at Manistota and Gaylord is at Harbor Springs.

Friday night, here, the Vikings took the opening kickoff on their 35 yard line and marched to the Manistota 15 yard line on Gary Lucksted, Chris Kroh and Jim Young doing the legging. At that point, the Grayling eleven lost the ball on a fumble. In all the Vikings fumbled four times and lost the ball twice.

Manistota only racked up two more first downs than Grayling, 13 to 11. Manistota fumbled twice but grabbed the ball back both times. The Ironmen rushed for 265 yards while Grayling's backs gathered in 215 yards on the ground and added 10 more thru the air as they completed 2 out of 8 passes. Manistota threw five passes and did not complete a one. Co-captain Chris Kroh intercepted.

Fire Call Numbers

Here are two telephone numbers to call in Frederic to report a fire —

348-6286 or 348-8541

The building committee formed with Ace Leng as its chairman with Jim Verling, Warren Horner and Floyd Valdek as members. Work started on the building on April 26 and through the summer slowly took shape. The new fire hall is 40 by 50 feet with an office and laundry. Letters To The Editor

Dear Mr. Strong,

My confidence was given quite a boost yesterday, when I found that I am passing in one of my courses here at West Point. Now I am quite sure that I'll be able to make it through this first year, because I "can't" do much worse in some of my subjects than I've been doing.

The system here is completely different from anything I've known. I'm not completely adjusted to it as yet, but I believe I will be very shortly.

At present, I'm in the hospital. I've been here eleven days now. I don't like it, because it's very difficult to study and I think it has been affecting my grades. I hope to be out out shortly.

I have joined the West Point Rocket Society. Compared to some inc., it is really something! We have hundreds of thousands of dollars worth of equipment. There are such things as an electron microscope, \$35,000 LOX storage tank, and a closed circuit television unit. The club has two trips yearly. One is to the Cape, and the other is to the Redstone Arsenal. I am the only member out of about sixty cadets in the club.

Soon now, I'll be trying out for the Point rifle team. I have very high hopes of making it. I did try out for the basketball team, but about thirty boys over 6'3" beat me out.

I'd still appreciate more mail. Sincerely, Cadet Sherman Neal

September 5, 1962.
 Mr. R. Strong,
 The Avalanche
 Grayling, Michigan.

Dear Mr. Strong:
 In this far away (from Grayling) place, we subscribe to the Bangkok World and Bangkok Post, and are kept informed of many diverse events — such as the fact that Nai Suchin Vongphak, 18, died and another young man became very ill of poisoning resulting from eating toads in an effort to "cure" a longstanding "malady". Newsworthy are the activities of their Majesties King Bhumibol and Queen Sirikit — his changing the robes of the Emerald Buddha for the rainy season, or officiating at the bathing rites of His Holiness Somdet Phra Ariyawong Katsayarn, the Supreme Patriarch of Thailand, who passed away recently. A picture in the Social World shows flyweight champion Pong Kinsapetch and his bride during Lustration at their wedding ceremony. In a quarter page ad we are enjoined to tune into the "Biggest TV Show of the Year", with an all star cast of Choochi, Poonsawat, Charindr, Suthop, Thanongsak, Meesak, Ruangthong — Kitawat all-star Band — a drama by Chatkul starring Churatan Trairattana with an introduction by H. R. H. Prince Chula Chakrabongse!

There are daily TV programs scheduled — 98% dubbed in Thai which makes it a little difficult at times for us foreigners to keep up with what's going on back at the ranch. Besides for because of which we don't have a TV set.

The North Star Company, Ltd., purveyors of pure drinking water, appear somewhat disturbed over the lack of telephone service. Our own phone is erratic to say the least. Pick up the receiver and expect most anything — busy signal instead of the dial tone, music from a radio station, people already talking — frequently you carry on your English conversation over two other people already conversing in Thai — sometimes with background music too. Then, the connecting seems so weak it is next to impossible to hear anything at all.

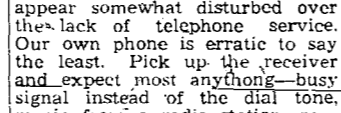

Mr. Klongtratrak and his wife must have had a little misunderstanding — about six months ago there was a Notice — "I have divorced Mrs. Kanda Boonyasiri. She has sold all of her shares of my company and resigned as Executive Secretary and Chief Ac-

countant of Prakeb Building and Highway Construction Company, Ltd. I hereby give notice that Mrs. Kanda Boonyasiri has no further relationship, both personal and in the company, with myself." Prakeb Klongtratrak.

Also enclosed are a few bar and restaurant ads — all of which is by way of saying that we do receive papers here. Thought you might find a few tidbits of life in Bangkok of passing interest, but the Exotic Far East notwithstanding we would still like to read the hometown news. Would you please arrange to send us the Avalanche, and bill us for a year's subscription?

Sincerely,

22 RETURN FROM CANADIAN TRIP

The twenty-two men who made the trip to Morberg's Camp, near Stony Rapids, Saskatchewan, returned home last Friday night with twenty pounds of fish for each man, and heads full of five days of unforgettable fishing memories.

According to Clarence Roberts, who reported on the trip, there was in the neighborhood of 30 tons of fish taken by the party. Most of which were returned live to the waters of the Black River where the fishing was done. The take was of lake trout, grayling, and northern pike. There were more big fish taken this year than in the two previous years put together, mostly in the 15 to 30 pound class.

The biggest lake trout was caught by Earl Johnston, weighing 26 lbs. even. The biggest northern pike went to Donovan Wharf of Pontiac, and the biggest grayling was a 24 pounder each to Art Clough of Grayling, and Fred Phillips of Flint. Around 700 feet of movie film was taken by Officer Roberts, and there were slides and movies taken by others in the party.

There were eleven boats on the fishing waters, each with an Indian guide and two fishermen. Each boat averaged about one-half ton of fish caught each day; a gain most of them being returned alive to the water. There were only six fish killed the first day, and enough to round out the allowed limit on the last day, the only others being taken were fish larger than the established "big ones." The killed fish were filleted and flown each day to Stony Rapids and there sharp frozen in

the local deep-freeze plant and held until the party's departure. Practically everyone brought home a grayling in the 3-lb. class.

The camp where the party stayed is between 18 and 19 hundred miles from Grayling, above the 54th parallel, which puts it about 50 miles from the Northwest Territories. It is 280 miles north of the last road, and flying is the only way it can be reached other than on foot. The quarters were deluxe for hunters, with running water at each cabin, a central shower for those which did not have one, a central dining room, and the distance from the boats about that across main street. There were caribou, black and brown bear, Canadian lynx, otter, beaver, rats and mink, also spruce grouse seen in the five days of the outing.

Bits O' Talk
 Sunday, September 16th, was the 40th wedding anniversary of Mr. and Mrs. Clifton Jacobs. Their daughter and husband, Mr. and Mrs. Robert Aube, helped them celebrate by taking them out to dinner in Alpena, after which they returned to the Aube home where a group of friends had gathered. The balance of the evening was spent in playing cards and visiting. The Jacobses have two children, Ralph, of Saginaw, who was unable to attend, and Mrs. Aube (Marsha Lee) of Alpena, also eight grandchildren.

Mrs. William Gannon and children of Marquette spent a week with her parents, Mr. and Mrs. Richard Lovely, recently, returning home Monday of last week with her husband, who came down to get his family.

Miss Janet Wyman accompanied her mother, Mrs. Kenneth Wyman, to Traverse City Wednesday, the 19th, to enroll as a freshman at Northwestern Michigan College. Janet's address is College House, 830 E. Front St., Traverse City.

Mr. and Mrs. Clifton Jacobs were at Alpena the weekend of Sept. 15th, where they attended the county Farm-Bureau picnic and

22 RETURN FROM CANADIAN TRIP

The twenty-two men who made the trip to Morberg's Camp, near Stony Rapids, Saskatchewan, returned home last Friday night with twenty pounds of fish for each man, and heads full of five days of unforgettable fishing memories.

According to Clarence Roberts, who reported on the trip, there was in the neighborhood of 30 tons of fish taken by the party. Most of which were returned live to the waters of the Black River where the fishing was done. The take was of lake trout, grayling, and northern pike. There were more big fish taken this year than in the two previous years put together, mostly in the 15 to 30 pound class.

The biggest lake trout was caught by Earl Johnston, weighing 26 lbs. even. The biggest northern pike went to Donovan Wharf of Pontiac, and the biggest grayling was a 24 pounder each to Art Clough of Grayling, and Fred Phillips of Flint. Around 700 feet of movie film was taken by Officer Roberts, and there were slides and movies taken by others in the party.

There were eleven boats on the fishing waters, each with an Indian guide and two fishermen. Each boat averaged about one-half ton of fish caught each day; a gain most of them being returned alive to the water. There were only six fish killed the first day, and enough to round out the allowed limit on the last day, the only others being taken were fish larger than the established "big ones." The killed fish were filleted and flown each day to Stony Rapids and there sharp frozen in

the local deep-freeze plant and held until the party's departure. Practically everyone brought home a grayling in the 3-lb. class.

The camp where the party stayed is between 18 and 19 hundred miles from Grayling, above the 54th parallel, which puts it about 50 miles from the Northwest Territories. It is 280 miles north of the last road, and flying is the only way it can be reached other than on foot. The quarters were deluxe for hunters, with running water at each cabin, a central shower for those which did not have one, a central dining room, and the distance from the boats about that across main street. There were caribou, black and brown bear, Canadian lynx, otter, beaver, rats and mink, also spruce grouse seen in the five days of the outing.

Company Spoils Michigan Green

The Michigan Department of Conservation has a good slogan — "Help Keep Michigan Green".

They might start working on the REA with northern Michigan headquarters at Boyne City. This government-labeled rural electric company has used weed brush killer under their power lines in some, if not all of the counties in which they operate. Residents as well as tourists don't like the sickening sight of dead brush and graceful evergreen trees killed and left standing, stark reminders that a company doesn't give a dam about the public it's supposed to serve.

A recent drive through part of Oscoda and Crawford counties, and even along the beautiful AuSable River, shows miles of this ravaging of the roadside under REA electric power lines.

If the company has the legal right to kill the brush and trees which might interfere with its lines, then surely its sense of what is right should cause them to cut and remove the sickening sight.

The Consumers Power Co. kills the brush or trees that interfere with their service lines, but promptly disposes of the corpses. REA should do the same.

The Ladies National League are holding their 38th annual convention here today and yesterday. A large delegation of ladies are here from Detroit, Flint, Saginaw, Bay City and Pontiac. Their headquarters are at Shoppenagons Inn. This is a fine organization and Grayling feels proud that they have selected our town for their convention, and hope that in some future time they will meet here again. The meetings are being held at the Grange Hall and very fine meals are being served by the Grange ladies. Wednesday the meeting was opened by Mrs. Albert Knibbs, our local president of Camp Wagner. Mrs. Knibbs then turned the meeting over to Mrs. M. Brittan, Detroit, National President. An election of officers was held, with Mrs. Louise Sherman, Grayling, Sentinel; Mrs. Albert Knibbs, 2nd Member of Executive Board, among those elected.

Miss Virginia Hanson, daughter of Mrs. Thomas Ryan Burke, Los Angeles, and Mr. Thorwald Wehnert, Grayling, was married September 23 in the Fifth Avenue Presbyterian Church to Dr. Earl Stough Taylor, son of Dr. and Mrs. Charles Stough Taylor of New York City. The Rev. Dr. John Sutherland Bonnell and the Rev. Dr. Benjamin F. Barber officiated. A reception took place at the Carlyle. The bride's father gave her in marriage. The bride attended Westlake School, Los Angeles, and Chicago Latin School and was graduated from Vassar College. She is college editor of Mademoiselle magazine. Dr. Taylor was graduated from Horace Mann, Princeton University and the College of Physicians and Surgeons, Columbia University. He is resident in surgery at the Presbyterian Hospital. The bride is the granddaughter of Mrs. Reamus Hanson, whom the newlyweds are now visiting, together with the other Hanson families. She was born in Grayling and spent the first few years of her life here.

Miss Elma M. Nelson of Higgins Lake, and Melvin J. Marshall of Grayling were united in marriage Saturday, September 23, at 4 o'clock. The rites were read at the Methodist parsonage. Rev. H. W. Kuhlman officiating. Mr. and Mrs. Marshall will make their home in the house recently purchased by Mr. Marshall on the South Side. The young couple

have the best wishes for a happy marriage of a host of friends in Grayling and Roscommon.

A good editor is one who has never made a mistake, who is always right; who can ride two horses at the same time that he is straddling the fence with both ears to the ground; who always says the right thing at the right time; who always picks the right horses as well as the right politician to win; who never has to apologize; who has no enemies and who has worlds of prestige with all classes, creeds and races. There has never been a good editor.

6,462 Years Added to Life Span Locally

(Special to the Avalanche)
NEW YORK — For the average Crawford County resident, what are the odds, currently, in favor of his living on to a ripe old age?
To what extent have modern medicine, better nutrition and improved living standards added to his span?
A new report by the U. S. Public Health Service and statistics from insurance companies show that life expectancy is on the rise locally and in most other parts of the country.
The average baby born today will to age 70.2 years, even if there were to be no further progress in medical science during his lifetime.
That is 20 years longer than his expectancy would have been, had he been born a mere ten years ago. Those who are 25 years old at present are likely to add an average, an increase of 1.4 years, and those who are 40, to age 74.1, which is 1.2 years more than before.
The size of the bonus, in the form of added years of life is different at different age levels.
In Crawford County, according to the latest Census Bureau figures, the median age of the population is 30.6 years, which is somewhat higher than the median age nationally, 29.5 years.
At the local age level, the figures show that 13.1 percent of added expectancy per person. The increase is greater than that for people who are below the median age and somewhat smaller for those above it.
The average, dividend, applied to the entire population of Crawford County, adds up to a grand total of 6,462 years of extended life for the community as a whole.
Compared with other decades, the recent achievements in this direction have been relatively small. In the 1940-1950 period, the gain in life expectancy was twice as great and, in the decade before that, still greater.
These earlier accomplishments, it is explained, reflect the dramatic strides that were made in controlling the infectious diseases.
Further advances in longevity will depend on the success of efforts to cope with the chronic diseases. A vast amount of research is being centered in that direction.

THE FICTION OF AUTOMOBILE CREDIT

About 60 million cars are in use in this country. It is when finance terms are used as advertising bait that the public sometimes gets fooled.
"No money down" is a common phrase. You won't have to pay a cent cash but you will have to pay your used car in 36 months. If you have a small loan, you can get it from a separate company. A small loan can usually be repaid in two separate payments with the balance due each month to the company.
An especially low interest rate such as 4 1/2 percent is not really what it seems. For one thing it is not simple interest but a "multiplier" percent based on the TOTAL unpaid balance for the entire term of the contract. Additional flat charges usually accompany extra-low rates. Ages along with special conditions of credit rating.
New cars can often be purchased on 48-month terms. PRO-Excellent credit and has made a substantial down payment. Though a purchaser should realize the longer the terms the greater the interest charges. If you purchase your car from us it can be financed any way you wish it with dignity and confidence. In every case the rates are as low and the terms as extensive as you'll find anywhere.

Tomorrow-GO JET-SMOOTH CHEVROLET for '63

If it didn't say Chevrolet on the flanks of the superb automobile you see here, you'd have a hard time proving it's a low-priced car. It offers luxurious styling, extremely comfortable, spacious and silent interiors... plus a lot of invisible ways of making and running like new when a lot

of others have started to sag and sigh new flush and dry rocker panels under the doors to guard against rusting... self-adjusting brakes... Delcotron generator for longer battery life. If you ever wondered why Chevrolet leads its field, a drive in this '63 should answer all your questions.

GO CHEVY II for '63-IT'S EXCITING!

GO CORVAIR for '63-IT'S EXCITING!

Hard as it may be to believe, this year's Chevy II is better, better than last year's and better than anything in its class. It combines all the new easy-care features of the big Chevrolet with its own wonderful attributes of parkable size, four- or six-cylinder fuel economy and interiors that'd do justice to cars with twice its price and half its charm.

Change it? Calm yourself, nobody's going to mess with a winner like this one! We did add self-adjusting brakes and a more fully aluminum muffler; interiors and outside trim are refined a bit, but the rest is pure Corvair with all the over-the-road goodness that implies. Oh yes, we changed the taillights so all those people you pass will know you're driving a '63.

ment, the Fredric Volunteer Fire Department has a Dodge truck equipped with a pump which carries a tank of 450 gallons of water and a G. M. C. truck donated to the department by Paul Arnes of Grayling. Allen Leng and Fred Dunckley completely rebuilt this truck which now carries a 950 gallon tank and the water can be expended under high pressure for a fog effect.

The department at the present time consists of 15 men. By-laws drawn up by a committee have been adopted and meetings for the purpose of training are held each Monday evening at 8 p.m.

After long months of effort by the volunteers and auxiliary in putting on supper, rummage sales and bake sales, the goal has been achieved. Following the dedication Sunday, the keys to the building and the building itself will be turned over to the Township Board. The Board has been very helpful during the long struggle to organize the department and the building of the new hall.

At the time of the August Primary election, the voters of Fredric Township voted extra millage for fire protection. In the November General election, voters of Maple Forest will vote on extra millage for fire protection. Providing the extra-millage is passed by the Maple Forest voters, the department will most likely become a town township fire fighting group.

An invitation to Governor John B. Swainson to attend the dedication had to be declined due to other commitments. He will be represented at Fredric's big day by Treasurer Brown and Mr. Schneider.
